

HAWK

MANUFACTURING

Turnkey Specialists in Medium
and Large Part CNC Machining,
Fabricating and Assembly

Serving the Eastern and Central Regions of North America As Your Single
Source for CNC Machined Parts, Subassemblies and Final Assemblies

Turnkey Specialists in Medium and Large Part Production

Hawk Manufacturing specializes in medium and large part production. Our capabilities include but are not limited to precision CNC machining (milling, turning, boring, drilling, tapping), production sawing, fabricating and assembly.

Working to your drawings and requirements, Hawk will utilize our diverse and extensive manufacturing capabilities, ISO certified quality assurance programs and knowledgeable team of machinists and industry experts to deliver your components and assemblies on time and to your specifications.

One Piece Orders to Continuous Shipments

Regardless of your unit volume requirements, look to Hawk to meet your needs. Whether you require a single complex assembly or 80,000 machined parts per month, Hawk can provide you with effective solutions, all within our 98,000 square foot ISO 9001:2008 certified Akron facilities.

Single Source Supplier

Hawk can be a single source supplier for all your CNC machining, fabricating and assembly needs. Simplify your supply chain and save time and money in the process. We can CNC machine parts up to 96" x 169" and produce fabrications, subassemblies and final assemblies up to 40 tons.

Our People Are Our Greatest Asset

Hawk Manufacturing employees are experienced and knowledgeable machinists, craftsmen and industry experts who are committed to meet or exceed your expectations and drive constant improvement. To foster and grow this passion for excellence, Hawk Manufacturing became a profit sharing business in 2016. Each employee has a vested interest in the success of our company and the quality of every part we ship out on time.

A Summary of Hawk Capabilities

- Up to 96" x 169"
- 40 ton maximum weight
- Three, four and five axis capabilities

Turning

- Up to 72" diameter x 80" long
- 20 ton maximum weight

Sawing

- 16" x 16", 24' bar capacity
- 3 ton crane

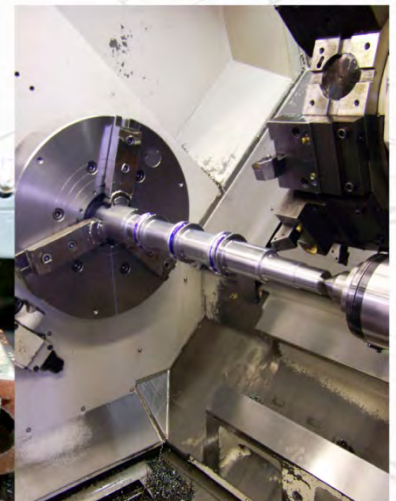

Fabrication and Assembly

- Broad fabrication and assembly capabilities
- MIG and TIG welding
- Sub- and final assembly
- 40 ton maximum weight

Additional Secondary Services

- Grinding
- De-burring
- Heat treating
- Wire EDM
- Coating / painting
- Plating
- Chemical Etching
- Sandblasting
- Stocking programs, both raw and finished products
- Logistics

Continuing our Commitment to the Industrial Manufacturing Community in the Eastern and Central Regions of North America

Hawk Manufacturing was incorporated in April 2015 under the direction of its new owners, Gary Worner and Carl Harbert. Hawk manufacturing is a company you may have known in the past as SC Manufacturing, founded in Akron over 40 years ago.

The new owners' experience is based on operating and growing companies into industry leaders while serving customers in diverse and demanding markets such as aerospace, agriculture, automotive, construction, industrial equipment, military, mining, motorsports, powersports, on- and off-highway truck.

Hawk is committed to its manufacturing locations in Akron, Ohio and the continued support of the heavy manufacturing industry in the Eastern and Central Regions of North America. Our plans are for aggressive and strategic growth. Our investment is in our people, plants and equipment. Our strategies will drive continuous improvement and value to all our customers.

Hawk Manufacturing's experienced Sales, Customer Service, Engineering, Manufacturing and Quality Teams bring together advanced industry knowledge, innovation and creative solutions to your machining, fabricating and assembly projects.

At Hawk Manufacturing, we are more than just an experienced CNC machining house. Contact us today to learn how our diverse and extensive capabilities can better serve your supply chain needs.
